PROFILO

PROFESSIONAL CORNER GUARDS

Perfectly finished corners and arches thanks to Profilo corner guards.
Also ideal to seamlessly join two different types of wallpaper at the corners.

The perfect finishing touch

Framing outside corners

Neatly joins two different wallcoverings at a corner

Framing arches: creates a nice division between the curved and flat sections of a wall

High-quality corner guards as a decorative solution

Reinforces outside corners

Impact-resistant

Can be painted in a colour that matches the wallpaper

Does not discolour (UV-resistant)

Flame-retardant, German standard B1 (DIN 4102), self-extinguishing

User-friendly and durable

Easy to apply

Angle adjustable from 90° to 180°

When the wallcovering is removed, Profilo remains in place and can be reused without any problems

Packaging

1 corner guard = 2,60 m

Rolled up in a box

Available in boxes of 20 or 40 corner guards
